

TRUST Final Project Checklist:

___ Select 1 area (or letter) of TRUST you want to know more about or have an interest to create a project about.

___ You will form a group with the other students in class who also selected that letter.

___ You will use 'Netrekker' and any resources listed in the **Expert** section of each Activity page to research your topic further.

___ As a group, you will decide the most important facts (at least 5) you will share with others.

___ As a group you will decide the digital tool(s) you will use to create your project.

*It can be school technology or personal technology.

*If using personal technology, your group must have a way to save, so others have access if needed.

As a group, you will plan and create a digital project that is:

	Project Checklist of Required Elements
	Focused on 1 element (letter) of TRUST (Uses topic name during the presentation)
	Project is digital (uses technology to create)
	Describes topic fully (Uses at least 5 important facts)
	Shares at least 1 example
	Shares at least 1 non-example
	Gives credit to any resources used
	Gives credit to resource creators (Using first names only)
	Presentation is 3-5 minutes long
	Creative and innovative (Look and “feel” is different than previous products. Effort is clear).

Possible Project Ideas:

NOTE: You are NOT limited to these suggestions. Be creative!

Powerpoint Presentation

Movie (Examples: iMovie, Movie Maker, etc.)

Photo Story

Comic Book type story or presentation

Digital Storytelling (Examples: Using Tech4 Learning's programs-Pixie, Wixie or Frames)

Creative Digital Apps (Examples: Sock Puppets, Toontastic, Puppet Pals).

Song Creation (Please record the song digitally and include music. You can use Soundzabound & Audacity as needed).
